Web Development with C# and ASP.Net Core

Duration – 88 Hours

Objective:

This course is designed to equip learners with the practical skills and in-depth knowledge required to develop modern, secure, and high performance web applications using C# and ASP.Net Core

C# Programming – 44 Hours

Modules

- **Introduction to C# and .Net**
- **Basics of C#**
- **Control Flow**
- **Methods**
- **Object-Oriented Programming**
- **Advanced OOP**
- **Interfaces & Abstract Classes**
- **Collections & Generics**
- **LINQ**
- **Exception Handling**
- **Asynchronous Programming**
- **File Handling**
- **Memory & Garbage Collection**

Web Development with ASP.Net Core – 44 Hours

Module

- **Introduction to ASP.NET Core**
- **MVC Architecture**
- **Routing & Middleware**
- **Working with Models & Data**
- **Entity Framework Core Integration**
- **Building RESTful APIs**
- **Authentication & Authorization**
- **API Documentation**
- **File Uploads & Downloads**
- **Deployment Basics**

Career Prospects

- .Net Developer
- ASP.Net Core Developer
- Web Developer
- Backend Developer
- Software Developer
